NEBRASKA NOTES.

The Nebraska congressmen have at least succeeded in getting themselves satisfactorily written up by the reporters and other obituary paragraphists at Washington.

Two full moons will occur this month. It is quite rare for December, or any other month, for that matter, to have two full moons.

The only instance before this was 1,896 years ago, at the coming of the Savior. Some people think that the two full moons this month foretold His second coming.

Hon. Geo. Humphrey, the state weighmaster at the sugar factory, has completed his work for this season.

During the time he was at the factory there were received 15,475 tons of beets on which the state will pay a bounty.

These have been worked up by the factory already and an accounting made. The beets which are now being run are inferior, not coming up to the required test.

Grand Island Independent.

It can be very truthfully asserted that while many farmers in Nebraska think their experiences with sugar beets have been somewhat unprofitable they are not discouraged.

They at present know nothing else that would give better results for the time and acreage. One thing is certain, if the beets do not come up to the test required by the factory, the farmers have their crop left to feed to stock.

Altogether it is an industry that promises greater results for both growers and manufacturers.

Grand Island Independent.

Dr. A. P. Sawyer—I have had Rheumatism since I was 20 years old, but since using your Family Cure have been free from it. It also cured my husband of the same disease. Mrs. Robt. Connolly, Brooklyn, Iowa. Sold by F. H. Longley.
